Hon. A. P. Hascall
Chancellor

Dear Sir,

Please find enclosed Documents, your Credentials as Senator Elect & Oath required by Statute, and the Journal of the Territorial Council.

Should the Legislature of this State assemble before your term of office expires, you will be required to take your seat in the Senate of Wisconsin

Yours truly
[illegible]
Governor

State of Wisconsin
Executive Department
Madison June 10th 1848

To all to whom these presents shall come Greeting

Know ye that I [illegible]
Governor of the State of Wisconsin do hereby certify that it appears from the returns of the election held in the several Counties of this State on the first Monday in October A.D. 1847 for the purpose of electing Members of the Legislature that Alexander P. Hascall was duly elected a Senator from the County of Walworth

In testimony whereof I have hereunto set my hand and caused the Great Seal of the State to be affixed. Done at the City of Madison this 10th day of June A.D. 1848

By the Governor

Sir

Upon an examination of the 9th Art. of the 13th Article of the Constitution, it would be found that the powers of this Department to appoint certain Notaries Public is taken away. This section provides that County officers whose election or appointment is not provided for by this Constitution shall be elected by the electors of the respective Counties, or by districts by the boards of Supervisors or other County authorities as the Legislature shall direct. This office being clearly a County office, owing to the provision of the Constitution referred to, and destroys the power of the Executive to appoint these officers

I return you this explanation for reasons you of the reason why your Brother George R Walker Esq is not Commissioned for the office of Notary Public of Milwaukee County as you requested

Capt. Hyram Knowlton
U.S.A. Commanding Fort Crawford

Sir,

I have been informed from a reliable source that there are parties of Winnebago Indians in the neighbourhood of Watertown in Jefferson County in this State about thirty miles east of this place, to the number of thirty indians and upwards. They are prowling about the country in that vicinity and have become quite troublesome to the people. They steal and kill the stock of the inhabitants and are otherwise annoying to them although I am not informed that they have committed any personal violence to the inhabitants.

At the request of the inhabitants-bordering with these Indians I earnestly solicit the interposition of yourself, or of the proper Government officer Charged with the removal of these indians to their own home west of the Mississippi to effect the removal of them from this State at the earliest possible convenience of the government officers.

Serious difficulties may be the result between the inhabitants and these indians if their removal is unnecessarily delayed.

If Capt. Knowlton is not the proper Government officer to effect the object of this communication he will have the goodness to hand it to the officer who has such power and solicit his early attention to the Subject.

Very respectfully
Your obt Servt
Nelson Dewey

P.S. I am told that a small party of troops could be sufficient as my informant said. That they were willing to go with them if he would furnish rations &c. If a corps is sent it would be well regulated to pass through this place and report to Capt. James Rogan (Quartermaster) at Watertown before the Indians can learn that they are sent for by the troops as they dislike the soldiers very much. Thereby

The Legislature of this State having instructed this Department to open a correspondence with different persons of the State for the purpose of ascertaining the most eligible location for the creation of a State Penitentiary and for obtaining such other information in relation to the location and construction of Penitentiaries as may be useful in establishing such an institution for the State, I have taken the liberty of addressing you this occasion and of requesting you to communicate to this department, at your earliest convenience, such information generally, upon the subject as your knowledge and observation of the County and section of Country in which you reside furnish for the location of a State Prison

You are particularly requested to ascertain and state the following particulars, viz. the proximity of the lands, for procuring good stone, timber and materials necessary for building at any given point specifying the location,

The Chamber of Commerce of Janesville for Wealth, Industry and Education, in annual convention assembled, would respectfully represent, that the manufacturing advantages which we have heretofore enjoyed, and the increase of business and wealth which we have reasonably anticipated upon the completion of the Rock River Canal, have been greatly diminished by the construction of railroads, which have diverted from the Canal a large portion of the business which formerly passed through it, and upon which the tolls were chiefly collected.

That the Canal is now in a condition to require annually large sums for repairs, and that the income from tolls will not be sufficient to meet the ordinary expenses of repairs, superintendence and collection, leaving no surplus for the payment of the interest upon the State debt

To the Senate & Assembly

I have the honor to acknowledge the receipt of your communication of date of December 4th 1848 asking the appointment of Commissioners to locate the Military road from Fort Winnebago to the Mississippi River

In relation to your communication relative to the Geological Survey of the State, I would say that the Legislature has appropriated for that purpose the sum of $6,000 to be expended in two years, which is entirely inadequate for a work of the kind, and the Executive cannot do so and the amount of that appropriation for the Legislature must increase the appropriation for this purpose or the work cannot be completed. The Legislature must increase the appropriation for this purpose or the work cannot be completed.

I would refer you to Senate Doc. No. 1 of the present session of the Legislature for information relative to the Public Lands in this State, and the manner of disposing of them. The Commissioner of the General Land Office has been requested to furnish the Legislature with a statement of the quantity of land sold in each county in the State, and the amount of money received therefor, and the amount of land remaining unsold in each county, which statement will be laid before the Legislature at the present session.

Your letter of the 4th Instant
I received at this house by last evening mail and I immediately
proceed to open engineers in relation to the bill which passed
the senate and assembly pertaining for and incorporating the Penobscot
County and the Company State Prison. I have to inform you
that the bill is not to take effect and cannot be put into
operation until the first day of January next. You
are also to know become a law by lapse of time for the executive hands
of the governor from the 4th day of August, at which time
it would become a law, That the legislature had intended
to have been summoned to him for approval on Thursday August 5th the
adjournment of the Legislature which was not the case. I was not
informed to new till Saturday or Sunday August 7th the adjournment
which I cannot recollect now. The journal of the assembly
has not been printed so that the bill could be carefully examined
in the assembly by the examining committee on Saturday the 31st day of
March last, it follows therefore that it could not have been supposed
by any action until that day or the ensuing which was Sunday.

I did not wish this bill to read at once, until some time already
the day on Sunday, and I had no time to give it any examination
although neglected bills of new subjects and general nature should
convey to the general power of the law, That the legislature had intended
so far as their action was concerned, constitution, could not be enacted
Ready that fifth of the Legislature of the session adjourned
before me for my action and examination on Saturday and Sunday
pursuant to the adjournment and the whole time both night and
day can be devoted in examining bills of the Revised Statutes and
other bills of a private and local nature to which no objection could
exist. When I read this law, it did not appear to need this
same promptly, and I had no time to examine into the propriety of it
passage, and I could not sign it in the dark. What any action
would have been on the bill, had I been informed of all the fact
and reasons on motion to the propriety of its passage I am unable to
say. Another may opinion because I did not think that the
public interest could suffer much one in signing it before the information
that in my possession and I had no time to acquire such information

I have received your letter of the 9th inst. and am glad that the Contract at Oshkosh has been let to Van Cott, which would be a great saving to the State, as much as Eighty Satisfactory to the Community at large.

My intention to advertise the work at the Portage Rapids, Three only, I Day that it ought in my opinion to be let. This Season, and this is the only question with the Two Engineers to be prepared to back us fully as your August Session. My intention is at the Board could consult the situation of the work and take the most favorable time to avoid Clash of jurisdictions in letting the Contracts. That point I will make the Engineers at the Board explain and with what advantages to the State should have the Location. Perhaps some saving may be obtained if the work is let out the present time.

I hope you will keep me advised of any thing effecting its interests

I Remain yours truly and Mr Dix could watch the progress of the work & see that the engineer does his duty. & all other

Your letter is rec'd and in reply to your enquiry in relation to a sale of the School Lands I will say my opinion is that the act providing for a sale of the School lands does not take effect until the 1st day of January next & such is the opinion of the Attorney Generals. Such being the case no legal sales can take place under the Act prior to that time. There is nothing mysterious. Your letter is in Substance Candid, & very much like one the expressing your views and the Secretary of State has duly my respects to yourself and the Secretary

Your letter upon the subject of the State prisoners convicts was received during my absence from this place, which will account for the delay of a reply.

The Judges of the Supreme Court did not express their opinion to me on the subject of the power of the Governor to remove the State prisoners from one place of confinement to another either by commutation of their punishment or otherwise. Before I can in any court act in the matter, the application must come from the Sheriff and jailor of Milwaukee County setting forth the reasons, if any, why they (the prisoners) should be removed, the crime for which each was convicted, the period of his sentence, when his sentence will expire, by what Court sentenced and accompanied by the certificates of Judge Hubbell that the removals ought to be made for the reasons so set forth by the Sheriff, when this information is officially furnished me, I shall then have some tangible information upon which to act, and without it I cannot legally interfere in the removal of any of the prisoners or commute their sentence

The records that were furnished the Legislature last session are not before me, and if they were they would not be sufficient for me to act upon.

In acting in this matter it is necessary to proceed with great caution, so that nothing may be done to invalidate the sentence of the convict.

If the Milwaukee jail is too full it is important for the health of the prisoners that more room should be provided and any thing I can legally do to accomplish this object I will do cheerfully. When the above information is officially furnished I will give it my action

Major Crafts & Rowe
Local Agents to locate Lands
for the State in the
Wisconsin Land District

I have been informed that you have located several thousand acres of land of a very inferior quality for farming, and not at all adapted to agricultural purposes, and are very rough and broken and that you located them with reference to their prospective mineral character, and not to their agricultural advantages.

The information, if correct, I regret and I must urge upon you as heretofore that you will locate for the State lands only of the first quality for agricultural purposes without reference to their prospective mineral advantages

You must strictly observe your instructions in locating only lands of the first quality for farming purposes.

I am told that many of the lands you have located in the vicinity of the Blue Mounds are almost entirely worthless for farming purposes, and that they are of no value unless they should contain Minerals, which is a very uncertain Contingency I hope you will not locate any more lands for their prospective mineral value, unless valuable and known discoveries, are already made on a given tract

I shall expect a strict compliance with these instructions

I hope this information may prove incorrect

Your report for the month of July is received, which shows that Lands to the amount of twenty thousand dollars have been sold and that up to the first of August instant: the aggregate Estimates amounted to over one half of that sum, & that the Accounts of such Estimates have been paid out on Warrants drawn by the Board of Public Works in pursuance of law;

I have certified these facts to the President of the United States as required by the act of Congress of August 8th 1846 making the grant.

You are therefore hereby

authorized and directed to reopen the State Land Office, sell Lands to the amount of two thousand dollars, when said Office and discontinue the Sales of Lands until that amount has been expended on the improvements & the fact certified to this Department by this Department to the President of the United States, and until you are officially notified by this Department that such certificate has been forwarded to the President, and until you are directed and ordered by this Dept. to open the Office & proceed with the Sales ... Succeeded by the Orthodox Democrats that as soon as one half the amount of the twenty thousand dollars was drawn from the treasury on the warrants of the Board of Public works you opened the Office & proceeded with the Sale before the proper Certificate was received by me & forwarded to the President. This was, will be upon examination of the Act of Congress irregular

The construction of the Act of Congress is that after Lands have been sold sufficient to produce twenty thousand dollars, before any more Lands can be sold, one half of that amount must be expended on the improvements & the Governor of this State must certify the fact of such expenditure to the President Not only the expenditure must be made but the fact must be actually certified by the Governor to the President before the Sales of Lands can recommence.

Therefore you will not reopen the Land Office for the Sale of Lands after being closed until you are officially informed by the Governor that the necessary Certificates has been forwarded to the President, which will be made to appear as soon as Your Certificate is received by him & he is officially notified

You will keep me advised of the progress of the improvements of the "piney woods" which it is proposed to

Sir, By an act of Congress
approved Sept. 4. 1841, a quantity of land lying
on each side of the Fox River & the Wisconsin
River portage between what became the Union
at Ft. Winnebago, was granted to the Sta

for the purpose of improving the navigation of those rivers. A portion of the lands thus granted were sold by the General Government, previous to the passage of the law referred to, which act contained no provision for the location of other lands in lieu of those sold. Under the Construction given this law by the Commissioner of the General Land office, lands cannot be located in lieu of those sold, without further legislation of Congress

The attention of the Hon J. D. Doty the Representative from this district at the last session of Congress, was called to this subject at the time of the passage of a law to remove the obstacles in the way of the location of the swamp lands, which he was instrumental in passing, with a view to expediting business of the last session, more fully than ever before.

It is hoped that the amendment will occur to prevent the passage of a law at our early day, for the location of these lands, whereby the improvements of the Citizens remained, may be secured to them, and the expectations and Representations from this State, in effect this object is never accomplished and disappointment created

When you were at Milwaukee last winter, I forgot to mention to you my views relative to the Wisconsin Marine & Fire Insurance Company, resulting from the passage of the act authorizing the question of "Bank" or "no Bank," to a vote of the people. I intended to have consulted with you on this subject, when you were at Madison last, during the session of the Legislature, but its occupied my attention, that you should upon my views on the subject.

The passage of the act referred to, has placed the propriety of at present maintaining proceedings against this Company to ascertain its charter rights, which has created doubts & difficulties as to how far legal enforcements of its obligations can be had from the present position of the Company and of the action of the legislature on the banking question. I have doubts of the opinion that it would be highly impolitic and detrimental to the public interest for the State officers to institute by legal proceedings with the action of the Company until the question of "Bank" or "no Bank" has been acted upon by the people at the polls. Should the vote of the people be in favor of the establishment of Banks, the reasonable presumption is that this Company will abandon the exercise of its Banking powers, and surrender its charter voluntarily, without resorting to the aid of the laws to compel it to do so. Should the people at the polls decide against the establishment of Banks, resort can then be had to the laws to compel it to cease the exercise of rights not granted by its charter, and in derogation of the laws of the land, both Constitutional and Statute.

It is but a short time till the people vote upon the Bank question, and this public mind would be, in my opinion subserved by postponing the institution of legal proceedings against it, until this question is determined by the people, and an additional reason why this action should be delayed is the fact that in my last Annual Message to the Legislature, I called the attention of that body to the action of this institution & urged that the necessary legislation be had, directing legal steps to be

taken in relation to the Bank question, to which suggestions of mine, the Legislature did not think proper to give any consideration, and adjourned without any notice on the subject, but on the contrary passed the act submitting the question of "Bank" or "No Bank" to a vote of the people.

Another objection why proceedings on behalf of the State should not be commenced against this institution until the determination of the Bank question, should be determined by the free and fair expression of the wishes and views of the people uninfluenced by any extraneous or foreign question or influence — Should legal proceedings be brought against this Company now for the purpose of winding it up, it would unite the whole weight of its influence, personal & moral, and a strong sympathy in its favor & that of the bank question, would spring up among the people in your section of the State, which would add great strength in favor of the Bank side of the question — Such a result ought not to be brought about by the action of the State or its Officers, & would be seriously prejudicial to the best interest of the State, and I have no doubt, but that you concur in the views & reasons I have here expressed

That having consulted with you relative to this institution since last summer, when I was in Milwaukee, I have thought it necessary & my duty to advise you of my honest views, that you may act understandingly on this subject, ——— Although I did not suppose that you would commence so important a proceeding without further consultation with me, after what transpired between us last summer — For the reasons stated I could not give my sanction to the institution of legal proceedings on behalf of the State, until this Bank question is determined and I have no doubt but your action as the Chief legal Officer of the State, will be in accordance with the course I have recommended

Ladonia May 26. 1897.

Mr John Hutto

I have been so much engaged officially away from this place since you were at Ladonia that I have not had time to examine your papers relating to the Registership from County until this time and by some inadvertancy of my clerk this was not forwarded to me until Saturday and I advise you to do.

I need inform you of the result of my Examination and my action in the case upon a full investigation of the facts and law in the case, upon which examination of the facts and law

The first Ward Battle was the office of Registration of Fannin County Texas

Upon an examination of the Statutes and Constitution I am clear that it is not such intended as an action could be sustained upon, the object being the County from whom the Registership from the people of the State and the object would be the same in effect as if holding had been accomplished by law.

It further appears that no Statement as the law requires was filed within 30 days after the 4th of December last by the Contestee that under Section 3 of Article 3 of the Constitution the Term of Office of Registration County is Four

The office being Four the Constitutionality of the Term of Office is not questioned upon this question argued above and Constitutional question

The fifth Paragraph of Article 8 of the Constitution reads thus. "The Governor, Register of Lands & District Attorneys shall be Elected by the Electors of the respective Counties, once in Two Years on the first Tuesday after the first Monday in November, and shall enter upon the discharge of their duties on the first day of January next after their election, unless otherwise provided in this Constitution" From this clause it would seem that the Constitution contemplates that Registration in these offices among which Registration should be considered, should be supplied by the Electors of counties only. As this is a contested matter in your county, it is highly important that the contest action is had, should be Constitutionally done beyond a doubt. I have therefore deemed setting the Tuesday, January, Saturday following the second Election, the 16th of June next to supply the Vacancy, which I trust will be satisfactory to the Electors of Fannin County and Yourself

Select Dewey

Oakland May 26. 1887

John E. Holmes Esq.
Jefferson

I have not had time to examine the papers relative to the alleged vacancy existing in your county of Jefferson and decide upon the rights of Mr. Ortandeo. The 108th Sec of Article 13 of the Constitution vests in the Legislature the power to declare by law what offices shall be deemed or become vacant.

The 6th subdivision of 3d Section of 11th Chapter of Revised Statutes declares that every office shall become vacant upon the officers refusal or neglect to take his oath of office or to give or renew his official bond, or to deposite such oath or bond within the time prescribed by law.

The 138th Section of Chapter 10 of revised Statutes makes it the duty of every County officer to execute and deliver his official bond and oath as prescribed by law, within twenty days after the term of his office shall commence. The 118th Sec of Chapter 10 of Revised Statutes prescribes that the obligee in the bond shall be the people of this State" 2d The Remedy of a wronged and its Construction

What the law means by an official bond is a legal bond and one upon which an action can be maintained against the obligors or sureties upon a breach of the conditions of the official duties of the officer who is the principal obligor, and one also such bond as filed and approved, it is the same in legal effect as if no bond had been executed for the public have no remedy

And if the attempted bond such a one as can be=tion could be maintained upon against his sureties is cannot for any violation or neglect of official duty on his part. I assume that no longer can be contended that an action can be maintained upon the bond executed and deposited with the Clerk, the obligee of the bond being the County Treasurer, united of the People of the State or the land Executive and the condition of the bond being defective and not according to law

If an action cannot be maintained on the bond against the sureties, it is the same as if no bond had been executed and deposited, and no action or legal bond having been executed and deposited within twenty days after the term of office commenced, the law stated an avoid by the operation the office became vacant and the vacancy becoming once exist, no subsequent attempt of his to execute and deposite a new bond can remove the vacancy.

I am also therefore that the office of Clerk of Jefferson County is vacant, I have therefore ordered the vacancy to be supplied by a Sheriff etc. for the held on the 4th of June next, which comes is said to be satisfactory to the people of that County.

The Attorneys having an Interest in the Office, shall manifest their Approbation of such Conduct in any Opinion he may express and adhere

Your dispatch is received & in reply I herewith send you authority to act as the agent of this State to prevent that portion of the Milwaukee and Rock River Canal Grant sold by Wisconsin Territory, from being changed to the State and to keep out of the grant of 500,000 acres made by Congress; You will use such exertions to accomplish this object as in your opinion will succeed. The first thing to do is to get from the Commissioners of the General Land Office, the account current of this State so far as this 500,000 acre grant is concerned, after that you know what to do & have to decide without further instructions from me, as you are acquainted with the whole history of the matter. Sir,

The citizens of this State residing in the region of the Fox & Wisconsin Rivers are deeply interested in the improvement of those streams for which a grant of land was by an act of Congress approved August 8th 1846 made for that purpose

At the time of the passage of the act referred to, a considerable portion of the lands within the limits of the grant, had been incorrectly sold by the Genl Govt & no provision was made in the act for the location of any other lands, in lieu of those sold, & the Commr of the Genl Land office has decided that no lands can be located in lieu of those sold, without the passage of a special act for that purpose ... At two previous sessions of Congress, the Representatives from this State as also the Senators in Congress were requested by this Department to procure the passage of an act to cover the case, but unfortunately for the interests of the Improvement, nothing was obtained of Congress

Permit me to call your attention to it, & to solicit your prompt and mi Connection with the rest of the delegation representing this State in Congress to secure at once the passage of an act to authorize the location of these lands

I beg you will consult freely with your Colleagues who thoroughly understand the situation of the matter & have this day been addressed in reference thereto

Sir,

Permit me to again call your attention to the necessity of procuring the passage of an act authorizing the location of land to complete the grant made by Congress for the improvement of the Fox & Wisconsin rivers

The unfortunable delay which has occurred in this matter, has already most severely disappointed the citizens of the country in the region of the streams to be improved, & it is to be hoped that the attention of the Senators and Representatives of this State, will be mutually and most cordially given, to secure the passage of a law at an early day of the session for the object mentioned
